

EXERCÍCIOS PROPOSTOS DE GEOMETRIA PLANA

1) Calcule a área das figuras planas: (considere $\sqrt{3} = 1,7$)

2) Dona Maria tem um quintal de formato retangular de **12 m** por **20 m**, nesse quintal tem uma piscina no formato de um quadrado de lado **5m**. Responda o que se pede com os cálculos necessários:

a) Qual é a área do quintal de dona Maria?

b) Qual é a área da piscina de dona Maria?

c) Dona Maria quer revestir o quintal (mas não a piscina) com um piso especial. Quantos metros quadrados desse piso dona Maria tem que comprar?
